Chef Tom Moloney

Executive Chef

In his early twenties Moloney began his self-taught tutelage, working under local and nationally recognized chefs. During a 12 year career with Celebrity Chef Wolfgang Puck, Moloney opened 7 casual and fine dining houses. After the successful opening of those venues, he continued to hone his craft by sourcing himself out as a restaurant consultant, developing menus and overseeing kitchens operations for highly respected restaurant groups.

Today, Chef Tom Moloney is leaving his mark on AquaKnox. As Executive Chef, Tom Moloney creates a menu of clean, artfully prepared dishes of the freshest ingredients available. His dishes truly showcase the flavor, texture, and scents of his food. “This method of cooking is the most basic, and also the most difficult.” says Moloney. “Only by preparing dishes with the freshest ingredients, the highest quality products, and in the most direct manner of cooking can you truly create a meal that is an experience, where the true essence of the food connects to the guest experiencing it.”
