YOUR FAVORITE GAMES AWAIT

Welcome to the finest gaming Las Vegas has to offer. This guide is provided to assist you with questions you might have about playing in our state-of-the-art casino. Inside, you'll find all the information needed to learn such exciting games as craps, pai gow poker, baccarat, blackjack, roulette, and more. Please read through each section completely to acquaint yourself with the rules and regulations for each game. Once you've learned how to play the games you choose to play, it will make for a better gaming experience.

Your experience can be even more rewarding if you choose to become a member of Venetian Rewards.

Your exclusive membership makes you eligible for a variety of benefits, including invitations to special events and casino tournaments, special rates on suites, dining, show, and shopping discounts, and more. And now, you can earn Venetian Rewards Points when you charge goods and services from participating shops and restaurants to your suite.

To receive your complimentary Venetian Rewards card, please visit any Venetian Rewards Desk at The Venetian Resort Las Vegas, or ask any Table Games Team Member to assist you with your sign-up. The privilege is ours.

We hope you will find this guide informative; however, you should always feel free to ask questions. When you require assistance, please do not hesitate to ask any of our casino staff, including the dealers.

SLOTS

We offer a wide variety of slot machines. Our slots range in denomination from \$0.01 to \$500. All slot machines operate on bills or Ticket In-Ticket Out (TITO) tickets. For immediate service, all of our slots are equipped with bill acceptors that allow you to purchase TITO tickets in the form of credits on your machine without leaving your seat.

Among our many options, we're proud to present unique game themes and MEGA Jackpot progressive machines. The highest progressive jackpot prizes range from hundreds of dollars to more than \$10 million. A large variety of the new and exciting multi-line, multi-coin, interactive bonus-screen games are also offered. Slot Team Members on the floor will be happy to show you how to play any of the slots or answer any questions you may have. All machines offer one of two methods of instruction. Written instructions are on the machine glass, and help screens are offered on video machines for the player's convenience.

Don't forget to join Venetian Rewards before you play your favorite slot machines. Once enrolled, simply insert your loyalty card into the card reader and start earning points. Points can be redeemed for cash back and can also earn you valuable complimentary services. It's our way of recognizing and rewarding our valued players every time they play.

Stop by our conveniently located Venetian Rewards Desks in The Venetian or The Palazzo casinos and join today or ask any Slot Team Member to assist you with your sign-up. The privilege is ours.

BACCARAT

Baccarat (pronounced bah-ka-rah) has long been among the most popular casino games in Europe and Latin America and, contrary to its appearance, is probably the simplest game to play.

The object of baccarat is to bet on one of two hands, the one you think will come closest to nine. Nine is the highest hand. Ten value cards have zero value. Aces always count as one. If the cards dealt total more than nine on either hand, they acquire the value of the second digit.

Example:

10=0 17=7 20=0 23=3

The shoe holds eight decks of cards. Before cards are dealt from the shoe, everyone places their bet on the side they think will win (banker or player). The dealer will then deal four cards alternately. Two are designated player cards; two are designated banker cards. The dealer announces the total of each hand and, if the rules require, will draw a possible third card for either side (see chart). The winning side is announced, losing bets are collected, and winning bets are paid even money.

All winning bets on the bank side are assessed a 5% commission. The dealer will keep a running account of your commission, which must be paid at the completion of the shoe (you may pay your commission anytime during the game).

There are two other bets called "pairs" and "tie." On the "pairs" bet, you are betting the first two cards on either the banker's or player's hands as a pair. If they are, you will be paid 12 for 1. On the "Tie" bet, you are betting that both the player and banker's hands will tie. If they tie, you will be paid 9 for 1. There is also an additional proposition wager called Tiger. Should you choose to wager on the Tiger, you win 13 for 1 on any winning two-card banker hand totaling six and 21 for 1 on any three-card banker hand totaling six.

We invite you to sit down at any of our baccarat games, where our dealers will be glad to show you the game and answer any further questions.

NO COMMISSION BACCARAT

This exciting variation of baccarat charges no commission on a winning bank hand. However, the payoff on a winning Banker hand totaling six receives 50% of the original bet.

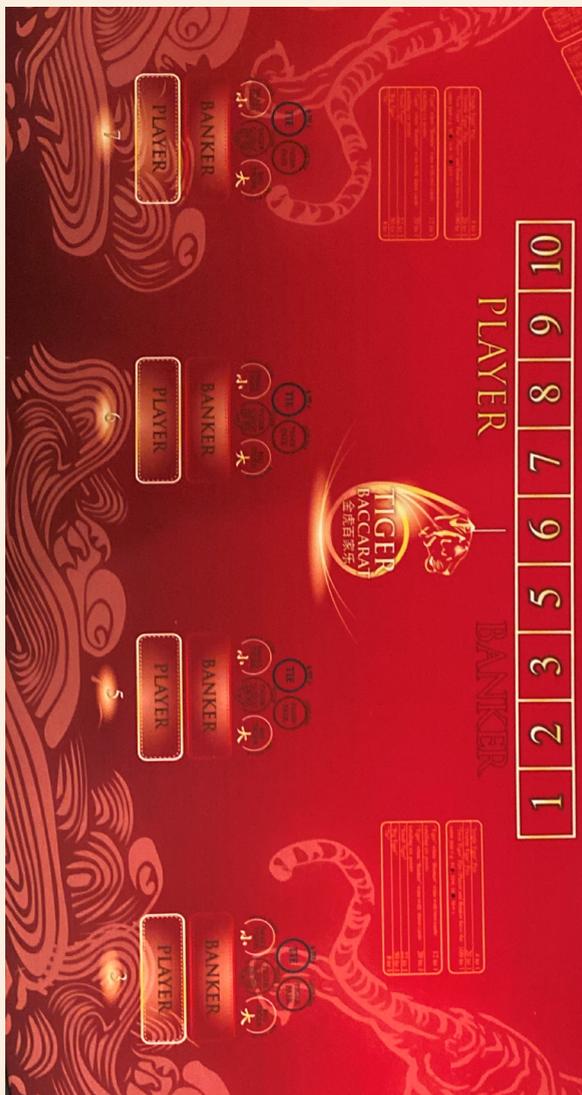

BASIC RULES TO REMEMBER

1. If banker and/or player hand has a total of eight or nine on first two cards, no further cards are drawn.
2. Player hand having zero to five must draw one card. Player hand having six or seven must stand.
3. Banker hand stands or draws one card as directed by the chart.

PLAYER HAND THIRD CARD RULE

When a player's first two cards total:	Player's hand:
0-1-2-3-4-5	Draws a card
6-7	Stands
8-9	Natural stands

BANKER		
When banker's first two cards total:	Draws when player's third card is:	Does not draw when player's third card is:
0-1-2	Banker's hand always draws on a two-card total of 0-1-2	
3	1-2-3-4-5-6-7-9-0	8
4	2-3-4-5-6-7	1-8-9-0
5	4-5-6-7	1-2-3-8-9-0
6	6-7	1-2-3-4-5-8-9-0
7	Stands	
8-9	Natural stands	

BLACKJACK

Blackjack, or 21, is one of the most popular card games played in our casino. It is easy to learn and exciting to play. We offered two-, six-, and eight-deck games where all cards are dealt from a box called a "shoe."

In blackjack, everyone plays against the dealer. In the hand-dealt game, the players are dealt two cards face down. In the shoe-dealt version, players receive both cards face up. In both versions, the dealer receives their first card face up and the second card face down. The object of the game is to get as close as possible to 21 without going over 21. If a hand goes over 21, it is called a "bust" or "break," and the wager is lost. In 21, Jacks, Queens, Kings, and 10s count as 10. An Ace may be played as a one or an 11. All other cards are played at face value.

When you receive your first two cards, you may either "stand" or "hit." When you "stand," it means you feel you are close enough to 21 and no longer wish for any additional cards. If you wish to receive another card or "hit," scratch the surface of the table with your first two cards (hand-dealt games only). If you wish to "stand," simply tuck your cards underneath your bet.

In the shoe-dealt version, you don't need to touch your cards, simply indicate a "hit" or "stand" by using hand signals. In both methods of play, you may draw as many cards as you want until you are close to 21 or until you "bust" or "break."

If you are closer to 21 than the dealer, you win and are paid an amount equal to your original wager. If your hand is less than the dealer's, you lose. If the dealer's hand "busts" or "breaks," you win as well. Ties are a standoff or "push" and your bet remains on the table.

If your initial two cards total 21, any Ace with a 10, Jack, Queen, or King, you have a blackjack. Blackjack is paid either 6 to 5 or 3 to 2, depending on the type of blackjack you are playing.

In 21, the player has many options to choose from:

SPLITTING PAIRS

If your first two cards have the same numerical value, you may split them into two hands. The bet on the second hand must equal the original bet. If the split pair is Aces, you are limited to a one-card draw on each hand. (Note: Re-splitting Aces is not available on the Double Deck game.)

DOUBLING DOWN

After receiving your first two cards, you may elect to wager an additional amount not to exceed the value of the original bet. With a double down, you will be dealt one additional card only.

INSURANCE

If the dealer's face-up card is an Ace, you may elect to take insurance. The insurance bet is a wager that the dealer has a blackjack. You may bet up to one-half of your original bet. Insurance bets pay 2 to 1 if the dealer has a blackjack, but lose in all other instances.

SURRENDER

Players have the option of surrendering one-half of their original wager after receiving their first two cards. If you surrender your cards, the dealer will take half of your wager. (Note: Only offered on six-deck shoe games.)

We also offer the following versions of Blackjack:

FREE BET BLACKJACK

Free Bet Blackjack is a blackjack game where under certain situations, the guest has the option of splitting or doubling down with the house providing a Free Bet Token for the additional wager.

SPANISH 21

Spanish 21 is an exciting blackjack variation where all 10s have been removed from the decks. Players win on all blackjacks and may double on any hand total and after hitting a split hand.

Blackjack
without face card.

Blackjack
with face card.

If you split Aces,
you get one hit on each.

You may split any pair.

You may double down
on any two cards.

CRAPS

Craps is an exciting, fast-paced, action-packed game utilizing a pair of dice. Here are some basics to get you started shooting craps.

One player, known as the “shooter,” throws the dice. All wagers must be placed before the shooter throws the dice. The types of wagers that can be made are:

PASS LINE

An even money bet is made on the first roll of the dice (known as the “come out roll”). You win if a 7 or 11 roll, or lose if 2, 3, or 12 roll (known as “craps”). Any other number that rolls becomes the “point,” and the point must roll again before a 7 to win.

DON'T PASS

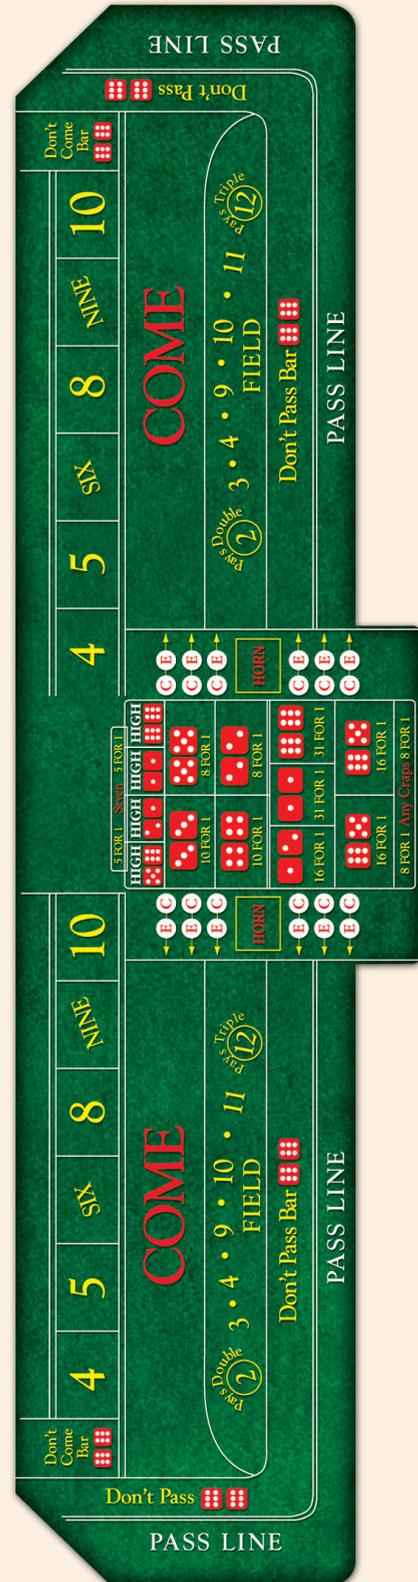

An even money bet, which is the opposite of the pass line. You lose on the “come out” roll if the shooter rolls a 7 or 11. You win on a 2 or 3 (12 is a tie). Once a point is established, you lose if the point is thrown and win if a 7 rolls.

COME BETS

Made anytime after the first roll when a shooter has a point to make. You win on a 7 or 11 and lose on a 2, 3, or 12. Any other number becomes your “come bet” and must be repeated for you to win before a 7 rolls.

DON'T COME BETS

Made anytime after the first roll when a shooter has a point to make. It is the opposite of the come bet. You win if 2 or 3 roll (12 is a tie), and lose if 7 or 11 roll. Any other number rolled becomes your “don't come bet,” and if repeated you lose. If a 7 rolls you win.

ODDS

Once a point is made on the first roll or a come bet on a succeeding roll, you may take the odds and win if the point or come bets are made before a 7. Payoffs are 2 to 1 on 4 and 10, 3 to 2 for 5 and 9, 6 to 5 on 6 and 8. "Don't pass" or "don't come" bets are in reverse: You must lay the odds in order to win.

PLACE BETS

Once a shooter makes a point, you may make a "place bet" on numbers 4, 5, 6, 8, 9, and 10. If the shooter rolls any of these numbers before a 7, you win the following payoffs: 9 to 5 on 4 and 10, 7 to 5 on 5 and 9, and 7 to 6 on 6 and 8.

A "place bet" may be taken off anytime before the next roll.

FIELD BETS

A one-roll bet. You win even money on 3, 4, 9, 10, and 11. You win 2 to 1 on 2. You win 3 to 1 on 12. You lose on 5, 6, 7, or 8.

PROPOSITION BETS

These bets are found in the center of the table and are one-roll bets. You are betting that on the very next roll of the dice any of these numbers will come up:

- Any Craps (2, 3, or 12) pays 8 for 1
- Aces (2) or Twelve (12) pays 31 for 1
- Ace-deuce (3) or Eleven (11) pays 16 for 1
- Seven (7) pays 5 for 1

HARDWAYS

A Hardway bet is not a one-roll bet. You are betting that the shooter rolls a pair. Hardways win if the dice roll as a pair and lose if a 7 rolls or if the number is thrown "the easy way."

Example:

If you bet a hard 8 and the dice roll 4, 4 you win. If the dice roll "easy" 5, 3 or 6, 2 you lose.

Hard Four or Ten pays 8 for 1

Hard Six or Eight pays 10 for 1

HOP BETS

Hop Bets are a one-roll bet on a specific combination of the dice. You are literally betting on what you think the very next roll of the dice will be.

If you think the next roll is going to be a (6, 3), you would tell the dealer that you want the 6 and 3 hopping. Hop bets pay 31 for 1 or 16 for 1, depending on the combination that you choose.

CRAPLESS CRAPS

Just as exciting as any craps game, Crapless Craps is not only fun but easy to master. As the name says, there are no "craps" numbers in this game. On the "come out roll" 7, you win, and any other number rolled becomes your point. Once a point is established, you must roll the "point" before a 7 to win.

DICE-LOGY

Our featured side wager on our craps games allows you to make three separate optional wagers. Little Ones (2, 3, 4, 5, 6), Big Ones (8, 9, 10, 11, 12), and Boom or Bust (2, 3, 4, 5, 6, 8, 9, 10, 11, 12). Complete a grouping of numbers before any 7 is rolled and you win.

ROULETTE

Roulette is an intriguing game that is played throughout the world. The large payoffs that are possible for small wagers always stimulate the interest of the expert as well as the novice player.

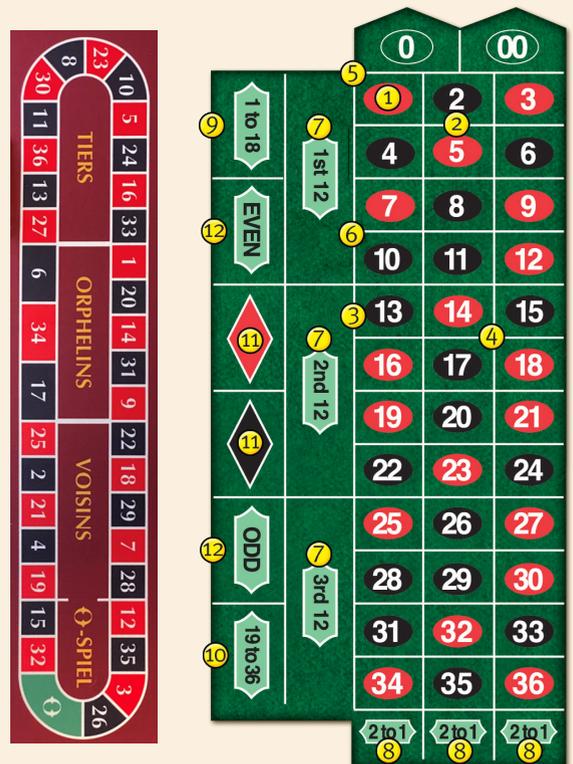

Different players use different colored chips, so the bets are not confused. The value of your chips is determined by the price you pay for them. When you're done playing, make certain to redeem your chips at the same table you were playing at. Once you leave that table, no one will know the value of your chips.

Each spin of the wheel provides a multitude of options for the player. A player may bet on single numbers, rows of numbers, or on adjacent numbers. A player also may play colors, odd or even numbers, among others. A bet on a single number pays 35 to 1, including the 0 and 00. Bets on red or black, odd or even pay 1 to 1, or even money.

We're proud to offer roulette in three variations. In addition to our popular American-style roulette game with 36 numbered slots, a 0 and a 00, we also offer our European Roulette, which has a single 0 along with the standard 36 numbers, and is a favorite among our international customers. We also offer an exciting new version, Venetian Roulette, where an additional betting option is added.

The diagram indicates the payoffs for single-chip bets and the many combinations available to you. The dealer will be happy to explain any of them. The exact placement of the chips determines the bet being made. Each player is responsible for the correct positioning of their wager on the layout, regardless of whether the bet is placed by the dealer.

1. Single number bet pays 35 to 1. Also called "straight up."
2. Double number bet pays 17 to 1. Also called a "split."
3. Three number bet pays 11 to 1. Also called a "street."
4. Four number bet pays 8 to 1. Also called a "corner bet."
5. Five number bet pays 6 to 1. Only one specific bet, which includes the following numbers: 0-00-1-2-3.
6. Six number bets pays 5 to 1. Example: 7, 8, 9, 10, 11, 12. Also called a "line."
7. 12 numbers or dozens (first, second, third dozen) pays 2 to 1.
8. Column bet (12 numbers in a row) pays 2 to 1.
9. 18 numbers (1-18) pays even money.
10. 18 numbers (19-36) pays even money.
11. Red or black pays even money.
12. Odd or even bets pay even money.

FACE UP PAI GOW POKER

Face Up Pai Gow Poker offers exciting head-to-head play against the dealer. Players can see what the house hand is before acting on their own hand. These Pai Gow Poker Vegas card games, offer optional Progressive, Fortune Bonus, Envy Bonus, and Ace-high wagers.

Just like standard pai gow, each player and dealer receives seven cards. It is played with an ordinary deck of 52 cards plus one Joker.

The Joker is used three ways:

1. As an Ace
2. To complete a Straight
3. To complete a Flush

The dealer starts the random number generator, which is used to determine who will receive the first hand. The dealer counts counter-clockwise, starting with the dealer, which is always counted as number one.

The dealer will set their hand according to our house rules, then instruct our guests to set their hand.

The players will arrange the seven cards dealt to them into two hands:

- High Hand – containing five cards
- Low Hand – containing two cards

Once the two hands are formed, they are placed face down in the positions indicated on the layout.

HOW TO WIN

To win your bet, both your high and low hands must rank higher than the dealer's hands. If you have played traditional poker, this game will come easy to you. Just like poker, Face Up Pai Gow has ranking procedures to determine which hand is higher.

The low hand must contain only two cards and must be a lower-ranking hand than the high hand containing five cards. If this requirement is not met, the hand is declared a "foul hand," and the wager is automatically forfeited.

When your hand is compared to the house hand, you must win both the high and low hand to win your bet. For money to exchange hands, both the low hand and the high hand must either both win or both lose. If either one wins and the other loses, then the wager is a "push," and no money exchanges hands. If either the high or low hand is a tie (same ranking), the house wins that portion of the hand.

All winning bets are paid even money. Face Up Pai Gow Poker is a commission-free game. When you beat the dealer, you don't pay a 5% commission.

PROGRESSIVE BONUS OPPORTUNITY

We offer a progressive bonus where a \$5 wager gives you a chance to win the progressive jackpot. In the past, this jackpot has reached over \$1 million.

FORTUNE BONUS

This bet wins if your best possible seven-card hand matches one of the payouts from the payable. If you wager at least \$5 on the Fortune Bonus, the dealer will place an "envy" button next to your bet. This qualifies you for an envy bonus payout. See the payable for odds.

ENVY BONUS

The dealer will pay all envy bonuses at the end of the round. If at least one player receives a hand that qualifies for Envy Bonus payouts, all players with envy buttons win. You can win multiple Envy Bonuses in a round, but you cannot win an Envy Bonus for your own hand or the dealer's hand. See the payable for payouts.

ACE-HIGH

In the event the dealer plays an Ace-high Pai Gow (a hand with an Ace and no pairs or higher), all guest main wagers will automatically push.

If you need assistance, the dealer or supervisor will be happy to help you in setting the highest possible ranking according to the House Ways. However, we cannot be responsible for any losses that may be incurred.

NOVELTY GAMES

ULTIMATE TEXAS HOLD'EM

This game features head-to-head play against the dealer. The player and dealer each receive two cards and will use the five community cards to make the best possible five-card hand. The dealer needs a pair to qualify. A bonus bet is offered for three of a kind or better. An optional \$5 wager can be made to win a progressive jackpot with a Royal Flush using the guest's two-card hand and the "flop."

CRAZY 4 POKER

This game features head-to-head play against the dealer. The player and dealer will each receive five cards, the best four-card hand wins. The dealer needs a King-high to qualify. A bonus bet is offered for a pair of Queens or better. An optional \$5 wager can be made to win a progressive jackpot with a Royal Flush using the guest's five-card hand.

THREE CARD POKER

This game features head-to-head play against a dealer. The player and dealer each receive three cards. The dealer needs a Queen-high to qualify. A bonus bet is offered for a pair or better.

An optional \$5 wager can be made to win a progressive jackpot with a Royal Flush using the player's cards and the two community cards.

MISSISSIPPI STUD

The player receives two cards and is given the opportunity to use three additional community cards to make the best possible five-card hand. A pair of Jacks or better is needed to win. A bonus bet is offered for a pair or better using the community cards only.

An optional \$5 wager can be made to win a progressive jackpot with a Royal Flush using the player's cards and the three community cards.

LET IT RIDE

The player receives three cards and is given an opportunity to use two additional community cards to make the best possible five-card hand. A pair of 10s or better is needed to win. A bonus bet is offered for a pair or better using the player's three cards only. An optional \$5 wager can be made to win a progressive jackpot with a Royal Flush using the player's cards and the two community cards.

THE MILLIONAIRE PROGRESSIVE

An optional \$5 wager could change your life. The main internally linked progressive is won when a Royal Flush in spades is dealt according to the game rules.

ELECTRONIC GAMING COLLECTIVE

STADIUM BACCARAT

This exciting new format puts a new twist on the classic baccarat format, infusing great moments of expectation and thrills with an accessible table minimum of just \$5. If you have a love of baccarat, you'll definitely want to give Stadium Baccarat a try.

Stadium Baccarat is very similar to playing baccarat at the table. The dealer is dealing the game in front of you, and you can watch the cards being dealt through the display on the betting terminal. Players place their wagers by touching the betting area on their terminals and have an opportunity to play up to four games at the same time.

STADIUM BLACKJACK

Stadium Blackjack connects you with a live table for a minimum bet of just \$5 for each hand dealt. A touchscreen displaying two colored tabs lets you switch between and view live outcomes from each available game. This action-packed hybrid gaming experience gives you the opportunity to wager concurrently on up to two games at once with just the touch of a finger, supercharging the excitement.

To place your wager, choose the amount that you'd like to bet by touching the casino chips across the bottom of the screen. To place your bet, touch the closest wager circle to you. Wagers, winnings, and credits remaining can be viewed in the bottom left portion of the screen. As the game begins, a single hand of blackjack is dealt to all active players, except for the dealer, who only takes an up card.

As players stand or bust, the dealer's hand is completed as a result of each player's decision. For example, while one player might stand, sending the subsequent cards to the dealer's hand, another might hit and receive those cards toward their total - leaving each hand to the player's discretion.

STADIUM ROULETTE

Stadium Roulette connects you with a roulette table dealt by a live dealer and has a minimum of just \$5. You can play 10 of your favorite numbers on select terminals for as little as \$.50 each or make a column, dozen, or even money bet for only \$5. This action-packed gaming experience is thrilling, entertaining, and, most importantly, fun.

Basic Rules:

With just the touch of your finger, the excitement begins. To place your wager, choose the amount that you'd like to bet by touching the casino chips across the bottom of the screen. To place your bet, slide your chip(s) to your desired number(s) or section on the roulette table on the touchscreen. The dealer spins the ball, and when it lands, all winning wagers are paid.

Racetrack:

The racetrack makes betting a section of numbers easy with two types of wagers, the "Neighbors" and the "Inside Racetrack" areas. The neighbors is a five-unit bet covering a designated number and the two numbers to the immediate right and left. The inside racetrack is a 10-unit wager covering a larger section of numbers. These betting areas are called the Far Turn, Homestretch, Clubhouse Turn, and Backstretch. Each unit represents one number "straight-up" and will pay 35 to 1 if won.

POKER

Each poker game uses a standard 52-card deck of cards. The cards are ranked from Ace, King, Queen, Jack, and 10 through 2 in descending order. An Ace may also be used as a card lower ranking than a 2 in sequence.

The Venetian Poker Room offers a wide variety of games and limits to suit all player needs. The games listed in this guide (Hold'em and Omaha Hi-lo) are the most common poker games played today.

RANKING OF HANDS

A poker hand at the showdown consists of your best five cards ranked according to the following list, from highest to lowest:

- Royal Flush
- Straight Flush
- Four-of-a-kind
- Full House
- Flush
- Straight
- Three-of-a-kind
- Two Pair
- One Pair
- High Card

HOLD'EM

Hold'em is a poker game in which each player receives two cards as their initial hand. Each player will use their two-hole cards along with the five community cards to form the best five-card poker hand.

BLIND AND BETTING STRUCTURE

In order to start the betting action, Hold'em uses what are called blind bets (blinds) to stimulate action and initiate play. Blinds are posted before the dealer deals the first cards.

Blinds are posted by players who sit in consecutive clockwise order from the dealer button, with the first player posting a predetermined amount called the "small blind." The next person in order posts what is known as the "big blind." Action is initiated on the first betting round by the player on the immediate left of the big blind. The blinds act last on the first betting round and are "live," which means the player is allowed to raise their own blind bet.

The board cards are dealt in three sequences known as the "flop," the "turn," and the "river." In Hold'em there are four total rounds of betting, two at the smaller limit and two at the larger limit. The first round of betting takes place after each player has been dealt their initial two-card hand.

The second betting round takes place after the flop has been dealt. The third round of betting takes place after the turn card has been dealt, and the fourth and final round of betting will take place after the river card has been dealt.

A new player entering any Hold'em game does not have to post a blind to play a hand unless they are in the natural small or big blind position.

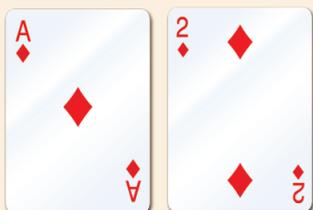

THINGS TO KNOW ABOUT HOLD'EM

A player may use any combination of five cards to determine their best hand:

- Two cards from their hand and three from the board.
- One card from their hand and four from the board.
- No cards from their hand and all five from the board. This is referred to as "playing the board."

HOLD'EM HAND EXAMPLE

Your Hand:

Your Opponent's Hand:

The Board (Flop, Turn, and River)

_____ FLOP _____

_____ TURN _____

_____ RIVER _____

Your Hand:

Your best five-card hand is a flush: A, Q, J, 10, 5 of diamonds.

Your Opponent's Hand:

Your opponent's best five-card hand is three-of-a-kind: J, J, J, K, Q.

In this example, you have used one card from your hand and four cards from the board to create your best five-card hand, a flush.

Your opponent has used two cards from their hand and three cards from the board to create their best five-card hand, three-of-a-kind.

Because a flush beats three-of-a-kind, you would win this hand.

OMAHA HI-LO

Omaha Hi-Lo is a poker game in which each player receives four cards as their initial hand. Each player MUST use a specific combination of five cards: Any two out of their hand and any three from the board (community cards) to form the best five-card poker hand and also the best five-card low hand.

BLIND AND BETTING STRUCTURE

The blind and betting structure for Omaha Hi-lo follows the rules of Limit Hold'em. See the Hold'em section for a general description.

THINGS TO KNOW ABOUT OMAHA HI-LO

- A specific combination of cards must be used in Omaha Hi-lo to make the best hand.
- Omaha Hi-lo will usually be played with a qualifier for the low hand, meaning in order for a low hand to qualify, it must contain five non-paired cards, all lower than a predetermined rank. If no low hand qualifies, for example, Eight or better, then the pot is won by the best high hand only.
- In Omaha Hi-lo, each player may compete for and win both the Hi and the Lo hands.
- The same card(s) from your hand may be used for both Hi and Lo hands, or a different card may be used to form the two different hands.

OMAHA HI-LO HAND EXAMPLE

Your Opponent's Hand:

The Board (Flop, Turn, and River)

———— FLOP ————— TURN RIVER

Your Hand:

Your best five-card hand is two pair, Aces, and 7s, using the two Aces in your hand and the 7s from the board.

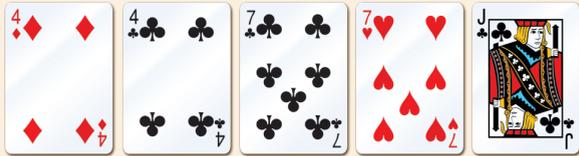

You also have a qualifying low hand using the Ace and the 8 from your hand, along with the 7, 5, and 2 from the board, 8, 7, 5, 2, A to make an 8 low.

YAHOO SPORTSBOOK OPERATED BY WILLIAM HILL

Your Opponent's Hand:

Your opponent's best five-card hand is two pair, 7s and 4s, using the two 4s from his hand and the two 7s from the board.

Your opponent also has a qualifying low hand using the 3 and 4 from their hand and the 7, 5, and 2 from the board: 7, 5, 4, 3, 2.

GAME VARIATIONS

No Limit: No Limit Poker is a structure in which there is no limit on the betting amounts. A player may, at any time, bet their table's stakes. As with limit games, there are blinds/antes that start the action.

Pot Limit: Similar to No Limit, Pot Limit structure means that a player may bet up to an equal amount that is already in the pot of that hand.

We offer a complete range of wagering on all major racing and sporting events. If you have any questions regarding a particular wager or need assistance in any way, please ask a Yahoo Sportsbook representative.
