“SANDS EXPO”/SES SERVICES

Technology/Wi-Fi

- The Congress Center at “The Venetian, The Palazzo, and Sands Expo” is known as an industry trailblazer in the area of Wi-Fi capability. Working with Xirrus and Extricom solutions, the leading providers of high-performance wireless networks, our facility has become the largest 802.11 ac Meetings and Convention Center network west of the Mississippi.
- In addition to this high-density redundant Wi-Fi network, “Sands Expo” offers robust network reporting and analytics, complete with customization and engineering, as well as 6GB redundant WAN bandwidth. A \$1.8 million infrastructure upgrade to “Sands Expo’s” Hall G has further enhanced guest capabilities, ensuring a consistent experience irrespective of one’s event location.
- Our facility’s capabilities are matched by a highly trained team of CCNA and CCNP certified engineers who work in tandem with our A+ and Network+ certified technicians. Together, they manage our cloud ready infrastructure and ensure network security, efficiency and interoperability for every event.
- Our permanently installed wireless network was specifically designed to support a massive number of simultaneous connections. 3Gbps of bandwidth (backed up by an additional 10 Gbps), are dedicated solely to our 2.25 million square feet of meeting and exhibition space. Capable of supporting a massive number of simultaneous connections, we’ve never reached full capacity; a recent event broke records with close to 38,000 wireless devices concurrently connected.
- Utilizing three different ISPs, each provides 1Gbps of bandwidth that is aggregated to reach a 3Gbps capability. If one of these circuits has a problem we are able to work off of the other two, ensuring a seamless user experience.
- Customers are able to bring in their own network infrastructure. Spare fiber optic cables are in each of our data closets, which allow us to install outside network equipment.
- Customers are allowed to run their own cat5 cable above carpet inside of their meeting rooms. However, running any cable under carpet, across main walkways, or under air walls is prohibited.
- If there is a request to turn off the house wireless network, every effort will be made to do so at wireless access points in one’s rented space. There is no fee to turn off the wireless network.

Animal Guidelines

On occasion, convention clients or private parties have sought to display or otherwise use animals, including "wild" animals, as part of their group functions at "The Venetian,

The Palazzo, and Sands Expo" As a general rule, no animal other than an animal that qualifies as a "Service Animal" or police dog as those animals are defined by law, shall be brought onto the property without the prior approval of the Legal/Risk Management department. This applies regardless of the type of animal or the length of time the animal will be on property. Permission for any animals other than ADA animals appearing in a show or booth must first be approved by Show Management, the SES/Event Manager and the Risk Management Department. Please note that a trainer must accompany the animal at all times, that animals may not remain in the building overnight, and that it is the owner's responsibility to clean up after the animal while on property.

Before such approval is given, in most cases, the following minimum information will need to be provided:

1. What type of animal(s)?
2. What is the purpose of bringing the animal on property?
3. How will it be transported? (i.e., caged, chained)
4. How long will it be on property?
5. Who will be handling the animal and what is his/her experience and training?
6. What will the exposure be to our Team Members and Guests?
7. What precautions are being taken to avoid injury to our Team Members and Guests? Provide a complete description including a diagram of the holding facility and/or cages used to confine and/or display the animal while it is on property and any other information that would tell us about security precautions taken to avoid injury to others.
8. If coming in from out of state, have the necessary Import Permits been granted by the Nevada Department of Wildlife?
9. Does the person, firm, or organization have an Exhibitor's License issued by the United States Department of Agriculture in compliance with the Animal Welfare Act (7 U.S.C.2131 et seq.)?
10. Does the person, firm, or organization have a License to Sell or Exhibit Wildlife from the state where it is domiciled?
11. If the animal is to be exhibited, has the necessary amount of security personnel been arranged for?
12. Complete and submit the animal permit liability form no later than seven (7) days prior to move in.
